Telge Projects Limited Inaugurates New Branch Office in Nashik to Support Growing Global AEC & BIM Demand

Nashik, 23rd February 2025: Telge Projects Limited (BSE: 544544), engaged in providing a comprehensive range of engineering design services including Building Information Modeling (BIM), Structural Engineering, Material take-offs, 2D Drafting, and Architectural design has announced the inauguration of its new branch office in Nashik, Maharashtra:

Office Address: Office number A-601/602 New Castle Apartment, Opposite Hotel Siddharth (Kamat) behind Westside Mall, Nashik-Pune Road, Nashik-422011

The Nashik office will undertake AEC BIM modeling, structural steel detailing, precast detailing and project coordination and execution support for international clients. The expansion is aligned with confirmed orders and is aimed at strengthening the Company's execution capabilities while supporting scalable growth in global markets.

With a seating capacity of 70 professionals, the Nashik facility will operate under a two-shift model to enhance delivery capability and improve infrastructure utilization. A phased ramp-up is expected to increase operational bandwidth by approximately 40%, with full staffing planned within the next three to four months.

Revenue contribution from the Nashik facility is expected to commence from March 2026 onwards. The office has been taken on lease and does not involve any material capital expenditure, with investments limited to infrastructure setup and IT systems and is expected to positively support operational performance in the coming quarters.

Commenting on strategic expansion initiative, Ms. Shraddha Telge, Chief Executive Officer, Telge Projects said:

“The establishment of our Nashik branch represents a focused step in strengthening our delivery capabilities and deepening our engagement with international clients. This new branch represents an important strategic step in highlighting our commitment to disciplined growth, operational efficiency and building scalable execution capacity for the long term.”
