Telge Projects Ltd

Telge Projects Expands U.S. Structural Engineering Footprint with Acquisition of Wheaton Detailing Services

Pune, 1st September 2026 – Telge Projects Limited, today announced that its material subsidiary, Telge Global Inc. (formerly known as Telge Projects Inc.), has entered into a Share Purchase Agreement (“SPA”) to **acquire 100%** of the issued and outstanding ordinary share capital of **Wheaton Detailing Services, Inc. (“WDS Inc.”)**, a U.S.-based company engaged in structural steel detailing and steel design services.

The acquisition marks Telge Projects’ strategic entry into the **industrial, petrochemical and commercial structural steel markets in the U.S.**, further expanding the Company’s addressable market beyond its existing capabilities. WDS Inc.’s established presence and domain expertise in these sectors will enable Telge Projects to access new customer segments and participate in a broader range of structural engineering and steel detailing projects.

With an expanded client base in the U.S. and complementary capabilities in structural steel detailing and design, the acquisition provides an opportunity to deepen customer relationships, broaden the Group’s service offering and leverage **cross-selling opportunities** across the combined platform.

Following completion of the transaction, WDS Inc. will become a **wholly owned subsidiary of Telge Global Inc. and a step-down subsidiary of Telge Projects Limited**. WDS Inc. will continue to operate in the business of structural steel detailing and steel design services in the United States, providing Telge Global Inc. with an opportunity to broaden its service capabilities and deepen its presence in the U.S. structural engineering market.

Commenting on the development, **Ms. Shraddha Shailesh Telge, Chairman, Managing Director & CEO of Telge Projects Limited**, said,

“The acquisition of Wheaton Detailing Services represents a focused step in strengthening our presence in the U.S. market and broadening our structural engineering capabilities. We believe the addition of WDS Inc. to our Group will complement our existing service offerings and create opportunities to further deepen our relationships across the U.S. market. As we continue to expand our international footprint, our focus remains on building a scalable engineering services platform with strong technical capabilities and long-term customer relationships.”

Telge Projects Ltd

About Telge Projects Limited

Telge Projects Limited is a Pune-headquartered, BSE SME-listed engineering services company providing **Building Information Modelling (BIM), structural engineering design, material take-offs, 2D drafting services, and Architectural Services**. The Company serves clients across institutional, industrial, residential, infrastructure and other segments.

The Company operates through its subsidiaries in India and the United States, with **Telge Global Inc.** serving as its U.S. subsidiary. Through its U.S. operations, the Group provides engineering and detailing services to customers across the structural engineering and construction ecosystem.

With a team of trained delivery engineers and capabilities across platforms including **Tekla Structures, Autodesk Revit Structure, SDS2 and AutoCAD**, Telge Projects focuses on delivering technology-enabled engineering solutions that improve coordination, accuracy and efficiency across project lifecycles.

Safe Harbour Statement

Any forward-looking statements about expected future events, financial and operating results of the Company are based on certain assumptions which the Company does not guarantee the fulfilment of. These statements are subject to risks and uncertainties. Actual results might differ substantially or materially from those expressed or implied. Important developments that could affect the Company's operations include a downtrend in the industry, global or domestic or both, significant changes in political and economic environment in India or key markets abroad, tax laws, litigation, labor relations, exchange rate fluctuations, technological changes, investment and business income, cash flow projections, interest, and other costs. The Company does not undertake any obligation to update forward-looking statements to reflect events or circumstances after the date thereof.
